# DELICIONI

'FRESH ONION'

**As a fresh onion, Delicioni is a very interesting addition to the assortment of storage and bunching onions considered traditionally within the chain.**

## TASTE • HEALTH • CONVENIENCE

The bulb of the fresh onion is particularly juicy and has a powerful flavour. The stems are very decorative and tasty too. Delicioni is attractively presented in a bunch of three with various colours. Thanks to this colour range, the fresh onion presents beautifully on both plates and shelves. The juicy and crunchy bite and the powerful flavour make this onion a wonderful companion for salads and grilling.

**Delicioni**

Fresh onion

#### Unique characteristics for Delicioni:

- ▶ The onion is full of taste, by its crispness and juiciness
- ▶ Fresh young harvested onion
- ▶ Ready to cut, ready to eat
- ▶ Nicely presented by the bunch
- ▶ Attractive form because of bulb/neck ratio
- ▶ Colourful by its combination of red, white and yellow cream
- ▶ Onion is a product with healthy characteristics: due to its flavonoids it has an antioxidant function, good for purification of the blood
- ▶ Powerful taste, which is caused by the level of pyruvate in the onion
- ▶ By grilling, the sugars in the onion will caramelize and the taste will become sweeter
- ▶ Year round production possible
- ▶ Cultivation possible from seeds and both plants and sets
- ▶ Early crop in southern countries, where they start with onion sets > fresh produce in 8 weeks. In northern countries early harvest possible as well
- ▶ Usage: salads, stir fry, grill, barbecue for the fresh (whole) onion bulb.  
Also the leaves can be used for cooking

## VARIETIES

### Northern Europe

#### TROY

Has nice globe yellow bulbs, production from sets

#### WHITE LADY

Nice bulb with good bright white colour

#### HYLANDER

Good quality highly downy mildew resistant variety

#### HYSKY
