

PAMPLONA

CAULIFLOWER

An early variety with a strong frame which produces a large head. Ideal round white head. For summer and early autumn,

Varieties perform differently under different climatic conditions, and are usually only suitable for specific markets. For more elaborate information about this variety in a specific market, visit the assortments on our country websites, via www.bejo.com/countries. Our local crop specialists are happy to give additional tailor-made advice.
