

UTOPIA CAULIFLOWER

Especially for Southern Europe (Mediterranean countries). The curds are solid, snow white and very well protected. The outer leaves are long and have a dark grey to blue green colour.

Varieties perform differently under different climatic conditions, and are usually only suitable for specific markets. For more elaborate information about this variety in a specific market, visit the assortments on our country websites, via www.bejo.com/countries. Our local crop specialists are happy to give additional tailor-made advise.
