

LUCKY BROCCOLI

Early variety, solid and heavy head with a fresh green colour. Strong against fungal diseases. Good shelflife after harvest. Yields, top head 500-700 g. For spring-autumn production.

Varieties perform differently under different climatic conditions, and are usually only suitable for specific markets. For more elaborate information about this variety in a specific market, visit the assortments on our country websites, via www.bejo.com/countries. Our local crop specialists are happy to give additional tailor-made advice.
