

## LUCKY BROCCOLI

Early variety, solid and heavy head with a fresh green colour. Strong against fungal diseases. Good shelflife after harvest. Yieldy, top head 500-700 g. For spring-autumn production.

Varieties perform differently under different climatic conditions, and are usually only suitable for specific markets. For more elaborate information about this variety in a specific market, visit the assortments on our country websites, via [www.bejo.com/countries](http://www.bejo.com/countries). Our local crop specialists are happy to give additional tailor-made advise.
