

BUSCARO

RED CABBAGE

Mid early and healthy variety for industry, fresh market and short storage. Produces big sized heads with an attractive internal and external colour. Specialist variety for processing only where head weights of 2.5kg are required. Suitable for September-October harvest.

Varieties perform differently under different climatic conditions, and are usually only suitable for specific markets. For more elaborate information about this variety in a specific market, visit the assortments on our country websites, via www.bejo.com/countries. Our local crop specialists are happy to give additional tailor-made advice.
