

KOSARO

RED CABBAGE

A productive, early red cabbage which produces round, uniform heads of 2-3 kg. Well suited for supermarkets. High yielding, round, big heads of excellent structure. A very promising, productive Primero type with Fusarium resistance. Suitable for early market.

Varieties perform differently under different climatic conditions, and are usually only suitable for specific markets. For more elaborate information about this variety in a specific market, visit the assortments on our country websites, via www.bejo.com/countries. Our local crop specialists are happy to give additional tailor-made advise.
