

SABROSA

SAVOY CABBAGE

Smaller compact heavy heads, for narrow spacing also. Sabrosa has dark green deeply savoyed leaves and produces a neat head from a compact frame.

Varieties perform differently under different climatic conditions, and are usually only suitable for specific markets. For more elaborate information about this variety in a specific market, visit the assortments on our country websites, via www.bejo.com/countries. Our local crop specialists are happy to give additional tailor-made advise.
