

ALEGRIA

WHITE CABBAGE

Productive type, suitable for tropical conditions. It produces round heads with a dense internal structure. It has smooth, tall leaves with a green colour. Not suitable for storage. High resistance to Fusarium

Varieties perform differently under different climatic conditions, and are usually only suitable for specific markets. For more elaborate information about this variety in a specific market, visit the assortments on our country websites, via www.bejo.com/countries. Our local crop specialists are happy to give additional tailor-made advice.
