

## CAMELOT SHALLOT

Mid late elongated-globe shaped red shallot for long day areas. Camelot has a high quality skin with an intense red colour. Productive variety.

Varieties perform differently under different climatic conditions, and are usually only suitable for specific markets. For more elaborate information about this variety in a specific market, visit the assortments on our country websites, via [www.bejo.com/countries](http://www.bejo.com/countries). Our local crop specialists are happy to give additional tailor-made advise.
