

## HYBING ONION

A very early Rijnsburger hybrid, earlier than Summit, but not with such a long storability. A nice globe bulb with a good yellow colour.

Type Crop INT : Rijnsburger, yellow

Varieties perform differently under different climatic conditions, and are usually only suitable for specific markets. For more elaborate information about this variety in a specific market, visit the assortments on our country websites, via [www.bejo.com/countries](http://www.bejo.com/countries). Our local crop specialists are happy to give additional tailor-made advise.
