

MOKUM CARROT

This variety has a very good flavour - the best of the bunching carrots. Very high-colored carrot with attractive slender roots. A great variety for early bunches. Holds sweet taste even in warm weather. Almost coreless. Early maturing variety producing attractive cylindrical roots with a good colour and sweet flavour. Relatively short, healthy foliage is ideal for bunching.

Growing Days Sowing INT : 80 (bospeen) / 90 (A-peen)
