

## PURPLE HAZE CARROT

Early purple Nantes with orange core. Slim and cylindrical carrots. For fresh market and industry. Distinctive purple exterior with bright orange interior. A very attractive variety tapered roots and medium-short tops. Excellent flavor raw or cooked. Emperor type with large, healthy tops. Plant a bit later to avoid bolting.

Varieties perform differently under different climatic conditions, and are usually only suitable for specific markets. For more elaborate information about this variety in a specific market, visit the assortments on our country websites, via [www.bejo.com/countries](http://www.bejo.com/countries). Our local crop specialists are happy to give additional tailor-made advise.
