

ABSOLUT GHERKIN

Parthenocarpic variety for indoor early production under plastic tunnel and glasshouses. Performs very well in the summer, during hot and stressful conditions, due to its strong root system. Besides the earliness is the total yield spectacular high. Plants are vigorous with good regeneration capacity with medium-short internodes. Easy fruit setting. Predominantly 2-3 fruits per node. The fruits have a uniform fine spine presence. The fruit color is uniform shiny dark green. Fruits are nice cylindrical, round shaped with a very good shelf life.

Type Crop INT : Parthenocarpic
