

## TOBOLSK

### TOMATO

Indeterminated, flatround beef. Good taste and a deep red colour. 220-240 gram, 4-5 vines. Early hybrid for plastic tunnels. Short internodal space (2 leaves among clusters) ensure even more earliness. Very uniform, deep red round/flatty fruits, no green shoulder. Good petiol/fruit connection (easy to pick).

Type Crop INT : Indeterminated

Varieties perform differently under different climatic conditions, and are usually only suitable for specific markets. For more elaborate information about this variety in a specific market, visit the assortments on our country websites, via [www.bejo.com/countries](http://www.bejo.com/countries). Our local crop specialists are happy to give additional tailor-made advise.
