

## CANTICUS ASPARAGUS

A 100% male green asparagus. Early variety that produces high yields. Uniform spears with an excellent quality and taste. Good tip closure. Foliage: Strong upright foliage. Canticus is a very early 100% male variety especially bred for the green market. Canticus offers high yields with grade size and great tip closure uniformity, high quality and excellent taste. Being an early variety it can be used under polytunnels to extend the UK season. It is recommended that you plant 1 plant more per meter compared to market leader. Bejo has seeds available and will start introduction this winter. Recommended plant density: 4-5 plants per meter
